## DEMOCRACY'S DUTY TODAY

### TO STAND BY THE TREATY AND LEAGUE OF NATIONS.

#### The Men Who Gave Their Blood to Make World Safe Are Entitled to Support of Democratic Party.

The great Democratic President, Woodrow Wilson, was asked last week by a man in Oregon whether it was important to nominate candidates to the Democratic National Convention pledged to ratify the Versailles treaty without Lodge reservations. Of the reply of President Wilson, one of the greatest newspapers in America today, The New York Times, says, "He has reaffirmed deathless and unconquerable principles of which some day all men will have to take account and justice will be awarded to them upon the scroll of history." The President said:

I think it imperative that the party should at once proclaim itself the uncompromising champion of the Nation's honor and the advocate of everything that the United States can do in the service of humanity; that it should therefore endorse and support the Versailles treaty and condemn the Lodge reservations as utterly inconsistent with the Nation's honor and destructive of the world leadership which it had established, and which all the free peoples of the world, including the great powers themselves, had shown themselves ready to welcome.

It is time that the party should proudly avow that it means to try, without flinching or turning at any time away from the path for reasons of expediency, to apply moral and Christian principles to the problems of the world. It is trying to accomplish social, political and international reforms and is not daunted by any of the difficulties it has to contend with. Let us prove to our late associates in the war that at any rate the great majority party of the Nation, the party which expresses the true hopes and purposes of the people of the country, intends to keep faith with them in peace as well as in war.

They gave their treasure, their best blood and everything that they valued in order, not merely to beat Germany but to effect a settlement and bring about arrangements of peace which they have now tried to formulate in the treaty of Versailles. They are entitled to our support in this settlement and in the arrangements for which they have striven.

## "Hope of the World"

The League of Nations is the hope of the world. As a basis for the armistice, I was authorized by all the great fighting nations to say to the enemy that it was our object in proposing peace to establish a general association of nations under specific covenants for the purpose of affording mutual guarantees of political independence and territorial integrity to great and small states alike, and the covenant of the League of Nations is the deliberate embodiment of that purpose in the treaty of peace.

The chief motives which led us to enter the war will be defeated unless that covenant is ratified and acted upon with vigor. We cannot in honor or whittle it down or weaken it as the Republican leaders of the Senate have proposed to do. If we are to excise the kind of leadership to which the founders of the Republic looked forward and which they depended upon their successors to establish, we must do this thing with courage and unalterable determination. They expected the United States to be always the leader in the defense of liberty and ordered peace throughout the world, and we are unworthy to call ourselves their successors unless we fulfill the great purpose they entertained and proclaimed.

## "True Americanism"

The true Americanism, the only true Americanism, is that which puts America at the front of free nations and redeems the great promises which we made the world when we entered the war which was fought, not for the advantages of any single nation or group of nations, but for the salvation of all. It is in this way we shall redeem the sacred blood that we shed, and make America the force she should be in the councils of mankind. She cannot afford to sink into the place that nations have usually occupied and become merely one of those who scramble and look about for selfish advantage.

The Democratic party has now a great opportunity to which it must measure up. The honor of the Nation is in its hands.

## ARENDSVILLE.

We notice by the papers that the United States is facing a food shortage owing to the wheat acreage being less than usual on account of the labor shortage and high prices for farm help, and considerable of the wheat was winter killed. Therefore our farmers should avail themselves to put out as large a crop of corn, potatoes and buckwheat as possible to help to make up the shortage in the wheat crop. With the use of their improved farm machinery they may be able to get out a fair sized summer crop.

Potatoes are selling here for \$4.00 a bushel, the highest price we ever knew them here.

The fruit trees of all kinds are very full of blossom and are safe yet from frost.

Mrs. Wm. H. Coe sold her house and lot in Beechersville to John Albert for \$245 and she has made her home with her son-in-law, Harry Hartzell in this place.

W. A. Raffensperger has purchased a Ford automobile.

Mrs. W. W. Woods and little child are visiting her parents at Centerville, her former home.

Harry C. Raffensperger has gone to Cumberland, Md., where he succeeded in getting employment.

## Serial Story by Father Whalen

In the Philadelphia Sunday "North American's" next issue begins Father W. Whalen's newest serial, "Miss Mulholland of Mine Run". It's a study of a township school teacher, a girl of great beauty and strong intellect, who loses her position through petty politics and is forced to join the army of bread-winning women in the Quaker City. There her life touches tragedy of the bitterest sort—a millionaire's home with a butterfly wife, a child growing up like a weed, a husband going to the dogs, and the culture of divorce flapping its wings with greedy anticipation. How "Frances Mulholland" brings order out of the chaos, and in saving others is destroyed herself, losing even her reputation, makes one of the best stories the "North American" has ever published. The close of the romance is unforgettable, where this girl gifted with extraordinary loveliness, good sense and mental brilliancy, turns from the hard-souled city back to the mines to drudge. She came to Philadelphia poor, without a dollar; she leaves it poorer, without her name. It's a mighty big plea for the school mistresses; and many of them will bless the priest who stops long enough in his busy life to think of them and put his thoughts into words.

## DOUBLE CIRCUS

### COMING THIS WAY.

This locality has entertained many circuses, but never anything to compare with the gigantic double shows billed as Ringling Brothers and Barnum & Bailey Combined which will exhibit afternoon and night at Harrisburg, Monday, May 31. Some idea of the enormous scale upon which features are presented may be had when it is stated that a quarter of a million pounds of elephants take part in a single act. The morning street parade is the longest and most brilliant ever given anywhere and offers something entirely new and novel in processional display. It is a stupendous double-circus that baffles description.

## HOW TO VOTE AT PRIMARY.

Woodrow Wilson is Democracy's Rock of Ages and he will be eternally right when the small men barking at him will have been forgotten. They have sought to destroy him because he is a Democrat, because as the greatest Democrat and President he led America to victory in the greatest War of the ages and represented to the World morality and justice. Because of the prestige he would give his party blind partisanship has left no stone unturned that could be thrown at him and have sought to tear down the foundation of a World peace he had builded.

Democracy should nominate delegates for the San Francisco Democratic convention those who will represent Democracy as Wilson has done and that means the Treaty of Peace and League of Nations. Read Wilson's latest word in another column. Go to the polls and stand by Democracy's Rock of Ages. There are twenty four names in the column for Delegates at large to the Democratic National Convention, twelve of them will stand by Wilson's ideas of right to the last ditch, the others are wreckers. The ones every Democrat should vote for are:

Samuel A. Barnum  
John H. Bigelow  
James I. Blaklee  
Robert R. Bright  
Andrew R. Brodbeck  
A. J. Casey  
John M. Core  
Robert Dodds  
Chas. P. Donnelly  
Chas. A. Fagan  
Webster Grim  
Simon P. Light

Do not vote for the first six men whose last names begin with A. They were chosen to deceive the voters and the twelve not named are wreckers. Give them all absent treatment. Cut out the list above given and be sure to vote for them. The entire twelve alternate delegates are all right.

Give A. Mitchell Palmer the honor of your vote for President. He stands for the Democracy of Woodrow Wilson.

The builders of Democracy to be voted for are:

Lawrence H. Rupp for United States Senator.

Peter A. Elssesser for State Treasurer.

Arthur McKean for Auditor General.

And for Congressmen at Large: John P. Bracken  
John E. Hanlan  
John B. McDonough  
W. D. Zerby

Vote for Joseph F. Guffey, to represent Pennsylvania Democracy on the Democratic National Committee. He did heroic work in knocking out the strength of German traitors during the World War.

The district delegates that should be supported are:

Edward Bupp, ex-register of York County.

Dr. Samuel K. Pfatzgraff.

There is only one candidate for Congress Chas. A. Hawkins. He will support Democracy as it has been builded by the President.

There are five candidates for the legislature on the Democratic ticket. They are well known to the voters. The most important duty of the Assembly man to be elected is his vote for U. S. Senator. There is no wetness or dryness in the issue of the Assembly man except as to his vote for U. S. Senator. 45 states have put in the United States Constitution prohibition and it will take 36 states to reverse themselves to disturb it and we do not expect to see that happen in our lifetime. However there must be statutory law by Congress to carry into effect the prohibition amendment and Congress passed the Volstead act. The legislature has nothing to do with amending the Volstead act, but the legislature will vote for a United States Senator who may be called upon to pass legislation of the kind. The National Democratic platform of 1912 and 1916 was for dry and that's the way for Democrats to talk and vote.

## SUPREME COURT JUDGE

Every voter will have the opportunity to express his choice for Supreme Court Judge and the choice is between Judge Kunkle of Harrisburg and Judge Sadler of Carlisle. They are both good men, of high ability, for whom the highest admiration is entertained. Judge Sadler, as the younger man, fully 15 years younger than Judge Kunkle has a decided advantage. The term is for 21 years. The Supreme Court is crowded with work and needs the vitality of young men who will naturally be able for the full term to bear the burden of its work. Judge Sadler 44 years of age has never been reversed by a higher Court. He has been endorsed by the Bars of 51 counties. Again he is half an Adams County man, because his father was a native of the county. While several years ago it was our pleasure and privilege to cast our vote for Judge Kunkle for the same office, it is going to be our pleasure and privilege to vote this year for Judge Sadler.

## ROAD BOND ISSUE

There is no question that good roads will ultimately give the consumer food products at a less value than when hauled over bad roads and the cost of tonnage in Europe on good roads is half the cost of our hauling over mud roads. This is the great benefit of good roads to be felt by all the people. The road scheme as proposed if carried out would give an equitable distribution of good roads throughout the country. The great mileage of good roads to be built by the State without any expense to the people of Adams County is a constant invitation and ap-

peal, when so much is being done for you, what are you going to do for yourself.

The one question to be faced when considering the bond issue is the cost. There is no question that when the peak of the load is reached the bond issue will represent on every \$1000 of assessed valuation a lien of \$60 and to pay this lien during a period of 30 years, will take \$90 for interest added to principal or a total of \$150. The taxation at the peak for this road building alone will be about 4 to 5 mills yearly or \$4 to \$5 on every \$1000 of assessed valuation.

As to the type of the road, State Highway Commissioner Sadler informed the committee composed of M. E. Knouse of Brysonia, Chas.

Smith of McSherrystown, and Chas. M. Boyer of York Springs, that the State recognized four types of road to be used in building of such a system: cement, the penetration, the water bound macadam and a resurfaced pike and the opinion was expressed that the bond issue would be sufficient at present prices to build the proposed mileage with types of road other than the cement, types varying according to local conditions. The issue has not been made against good roads, but one informing of the cost of having good roads, so the people may intelligently vote, knowing what the burden will be.

## Don't Treat Kidneys Rough, Warns Dr. Carey, Specialist

Constant Flushing May Injure the Delicate Organism and Seldom Removes the Poisonous Deposits.

Now that Dr. Carey, kidney and bladder specialist, has retired from active practice, he generously warns people that even the smallest symptoms of kidney trouble should have serious attention. Backache, for instance, puffiness under or specks floating before the eyes, heavy feet and dry skin, are also danger signals. "Thousands die yearly because they neglect their kidneys," says Dr. Carey, "and I feel upon retiring that I should tell all who even suspect kidney or bladder trouble about my prescription, Marshroot, which, during my active practice, has cured thousands of all kinds of kidney ailments." This prescription has been given to pharmacists generally throughout America and is dispensed by them under the name Dr. Carey's Marshroot, a name that every sufferer from kidney trouble should remember. Dry Goods Department Store  
GETTYSBURG PA.

An Offering of Our

Entire Stock of Merchandise  
Under Our Own Previous Prices  
Ten & Twenty per cent Discount Sale  
For Cash

Beginning Friday, May 14, continuing until closing  
hour, Saturday, May 22nd

There is a concerted movement of Price Reductions by the progressive merchants of the country to retard the still higher prices in the primary markets, in which we gladly join if in this way we can help bring about this result.

Much of this great stock of ours was contracted for to save price advances—that have since taken place—and marked at our regular profits on the lower cost. Nothing has been marked up for this sale, but the discount deductions apply to goods that had for any reason been previously marked down. We believe that our community will avail themselves of this opportunity to get goods under price and help in this way to show that there is a peak of prices that will not be crossed.

We have never shown a more complete stock—nor have net profits been less on sales for several years than now.

Remember that the entire stock, except a few items upon which there are price restrictions, come under either the 10 or 20 per cent. deduction. The sale slip will be made at our regular prices—and the discount deducted showing exactly the amount saved.

The only restrictions are:

No goods returnable after period of sale  
All purchases must be cash  
All phone or mail orders must be paid during period of sale
